Total Fixture Units -> Show NET increase in demand									12.5

For Explanations, see 1998 California Plumbing Code page #74

CAPACITY FEES ARE BASED ON ALL NEW AND /OR ADDITIONAL DEMAND

Note: If any fixtures or water requirements are designated by GPM - City Staff will convert all use to GPM for meter sizing.

I affirm that the information given is correct. The approval given for minimum meter size and maximum water capacity of water pipe are based solely on the information and the building plans. Any deviation under construction will require resubmission of corrected data for determination of adequacy of water pipe and meter size.
